## Summary

I'm an enthusiastic developer focused on crafting web applications and software, with expertise in MERN stack development. As a front-end developer, I bring a strong foundation in HTML, CSS, and JavaScript, coupled with deep expertise in React.js. My ability to design and implement user-friendly interfaces, optimize web performance, and convert Figma designs into perfect Responsive Web Templates. My problem solving-skills sets me apart from others. I am currently preparing for Node.js, Express, and Mongo-DB. My future target is to become a MERN Stack Web Developer.

## Work Experience

### Project-My Portfolio

I have also developed a personal portfolio showcasing my web development projects, It serves as a testament to my skills and provides real-world examples of my work, including responsive web designs.

### E-commerce-Oribe

I am working on an E-commerce product called Orebi. My role is to develop Components, Routes, Hooks, Redux, form Retching API data presenting data on the website while maintaining the exact UI.
